CAPRI COLLECTION

CAPRI is an indoor-outdoor furniture collection, inspired by a timeless Mediterranean feeling of casualness and lightness. The collection is united by a symmetrical geometry rendering visual simplicity and elegance throughout. It has been developed under the creative direction of Stefania Andorlini.

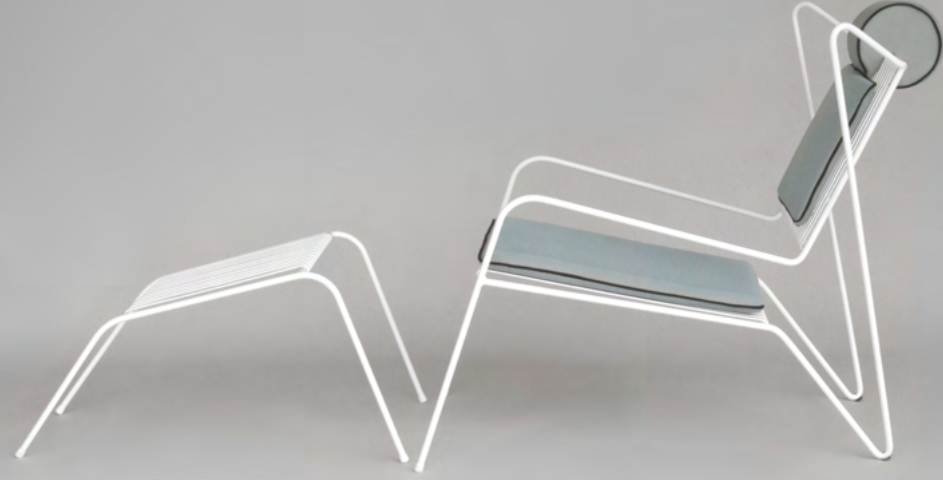

All products are fully made of (stainless) steel, a durable material and key element of the Mediterranean feel.

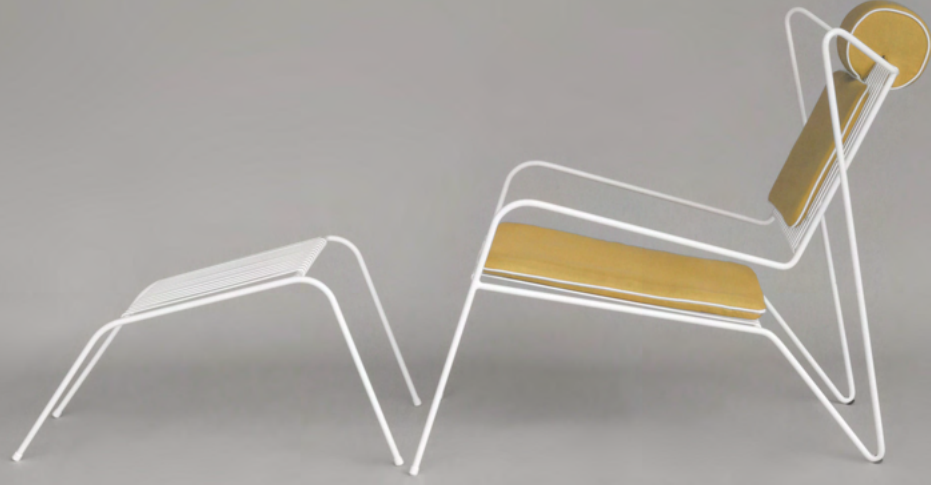

CAPRI is timeless, sustainable and pleasurable, designed to be loved for a lifetime, transforming any space into a place to enjoy.

The collection is suited to a wide variety of environments, from private environments such as gardens, terraces and balconies to public spaces like cafes, hotels and restaurants.

MATERIALS

All products are either made of stainless steel or steel. Products made of stainless steel are powder coated, products made of steel have an additional KTL primer with anti-corrosive properties.

Thus all products are suited for both indoor as well as outdoor use.

The entire cushion collection is made of robust OEKO-TEX® certified outdoor fabric, which is characterized by its particularly water- and dirt-repellent function. The special fibers are made of highly UV-stable pigments ensure that the textiles are light-resistant and protected from the harmful effects of sunlight.

COLORS

All products are available in two different colors, black or white.

The cushions are available in 4 shades and conjure up color on the timeless product designs.

CAPRI

Chair

Design: Stefania Andorlini

Collection: CAPRI

ART. 1001

A versatile chair – at home outdoors as well as indoors - lending your space a touch of elegant coolness and lightness. Stainless steel, black or white.
