DINING TABLE**

COOLS Outdoor - 2023

## MARINA DINING TABLE

An extra large dining table for memorable times with your loved ones. Characterized by its elegant simplicity and powerful presence, the Marina table is made of high-quality wood. The white or black table top is set upon two teak wood blocks, with an intelligent under-construction that doesn't require screws and stabilizes the table. It is made for indoor/outdoor use. A special boat lacquer protects the wood from the weather. You can find a cozy seat on the optional benches, which can be combined with the Capri chairs or other beautiful chairs of choice.
